Overview

Los Angeles DJ/Producer **TAKE** returns to the scene for his third and best release to date. The "Third Story" EP is 28 minutes of Instrumental Downtempo Hip Hop that will appeal to fans of MADLIB, FAT JON, RJD2 and PREFUSE 73.

With a back to basics approach, using only a sampler and the contents of dusty milkcrates, **TAKE** crafts an organic sound collage thick in layers and rich in melody. The EP is eight tracks deep with a little something for everyone.

- Songs like "**Looking For Life**" take the listener on an imaginary ride through the streets of Havana, Cuba or São Paulo, Brazil.
- "**What Else**" proves there's still room for innovation in an art form that has become so predictable.
- The laidback bounce of "**Further On**" and the rhodes drenched "**Next**" will definitely appeal to Hip Hop and Lounge heads alike.
- "**L.A.T.**" seems to be everyone's favorite but we'll let you decide for yourself.

TAKE is also co-founder and a resident DJ at SQUARE ONE, a bi-weekly party of Hip Hop classics, Rare Grooves, and Downtempo held at Hollywood hot-spot Star Shoes. If you are in Los Angeles make sure to check out SQUARE ONE on Fridays.

Look for a 12" with remixes and new material in September and a full length shortly after. Expect full College radio and DJ support as well as reviews in related music publications.
